

## ENVIRONMENTAL POLICY

**LAMDA SA** recognizes that company's activities affect the environment and is committed to minimising any negative impact on the local and global environment by improving our environmental performance. Environmental responsibility and sustainable performance are an essential part of our goal to become a leading global manufacturer of high-quality products for the external shading systems market. We in **LAMDA SA** believe that the environment is everybody's responsibility and all employees are accountable for environmental performance.

To accomplish this, we are committed to:

- Implement and certify the internationally recognised environmental management system, ISO 14001:2015, in all of its operations to ensure accountability and continuous improvement.
- Identify, review and understand the environmental aspects and impacts arising from our existing and planned activities
- Set and communicate objectives and targets that result in continuous improvement of our environmental performance and the Environmental Management System itself
- Comply with all applicable laws and regulations and with any other environmental requirements or commitments
- Follow a concept of continuous improvement and make best use of our management resources in all matters of environmental sustainability
- Identifies and implements ways to improve the efficiency with which **LAMDA SA** uses materials, resources and energy, prevents environmental pollution, minimizes emissions, and recycles waste.
- Provide the leadership and resources required to make this policy and our environmental objectives effective
- Encourage and equip every employee to act responsibly and reduce our environmental impact, by providing appropriate training and awareness
- Communicate our aspirations and progress in reducing our environmental impact to interested parties, including suppliers, local authorities, stakeholders and project partners and taking account of the goals and aspirations of those organisations
- Routinely monitor, assess, evaluate and report on the company's environmental performance and on our conformity with this policy.

In our endeavor to make this policy a success, we seek the participation and support of all interested parties, including customers, suppliers and employees.
